Material

Finish code

Finish description

—wood types

In order to interpret the Wood Finishes correctly, please note that the first indication (Essence) identifies the wood material of which the finish support is made of. The second indication (Finish) identifies the product stain and corresponds to the P... code. The finish code is very useful as it makes products with the same finish easy to combine, even though the wood essence is different. The stain color samples in "Finishes" section show all the different wood essences. Structural and dimensional qualities are reproduced accurately. Wood is a living element, therefore slight color variations may occur, depending on the structural differences of each wood essence.

—metals - plastic materials - washable synthetic fabrics

the "P..." code identifies the color of the item component.

—fabrics and fabric fibres

The three-digit code identifies the color of the fabric for each item / component. Each fabric batch can show color differences compared to the fabric samples and to the products manufactured at different times. As for the removable covers cleaning we recommend to follow the care instructions.

—soft leather, leather

The three or four-digit code identifies the color of the soft leather / leather for each item / component. Any natural sign, characteristic and color difference compared to the samples is not to be considered as a defect but as a unique feature of real leather or leather, therefore making it an authentic product.

Made To Order upholstery program

The Calligaris Made To Order program offers the possibility of customizing best seller upholstered chairs with a wide range of coverings.

The minimum order quantities for this program are:

- 2 pieces for stools.
- 4 pieces for chairs.
- 2 pieces of head table armchairs.
- 2 pieces for chairs and armchairs, only if ordered in combination with other items (i.e. 1 table, other chairs, etc. object excluded). A 20% surcharge will be automatically applied.

For this collection are available only the fabrics marked with the symbol  and present here below and in the section "Made To Order PROGRAM" at the end of the pricelist.

The lead-time to our warehouse is foreseen within 6 weeks from order confirmation.

For models manufactured with customer's fabric covering "COM", please follow the instructions on page 16-17 of this price list section.

Made To Order upholstery program

customer own material (com)

The minimum order quantities for this program are:

- 2 pieces for stools.
- 4 pieces for chairs.
- 2 pieces of head table armchairs.
- 2 pieces for chairs and armchairs, only if ordered in combination with other items (i.e. 1 table, other chairs, etc. object excluded). A 20% surcharge will be automatically applied.

disclaimer, terms and conditions

Please follow these rules carefully.

- I. The fabric consumption for each model (Please see the "COM" FABRIC CONSUMPTION page) refers exclusively to fabric 140 cm wide, solid color, with no defects. The possibility to use a fabric with a width different from 140 cm or a fabric with a pattern or leather is subject to Calligaris Spa's approval and to a higher fabric consumption compared to the one indicated on the pricelist.
- II. "COL" (Customer Own Leather) is no longer accepted.
- III. The non-upholstered structural frames will be covered with the standard Calligaris branded fabric; on the models made with customer's own material we will not apply any other brand name.
- IV. Seams and zips will always be stitched with a thread in a color matching the upholstery, according to the standards used for our models. The customer must clearly indicate possible special ways of cutting the fabric like stripes direction or decorations.
- V. Calligaris S.p.A. fabric approval refers only to the upholstering.
- VI. Calligaris S.p.A. declines any responsibility in regard to wear and tear, fire resistance or other client's material technical features.
- VII. Calligaris S.p.A. reserves the right to request a further dispatch of customer own material should it prove defective or insufficient.
- VIII. Calligaris S.p.A. is in no way responsible for the materials sent by the customer, for possible defects and technical deficiency of the materials themselves, for possible defects showing once the item has been upholstered, as well as maintenance and cleaning instructions.
- IX. Calligaris will not return any excess fabric after the realization of the chairs.
- X. LEAD TIME FOR CUSTOMER OWN MATERIAL ORDERS: Production Lead Time is estimated in 8 weeks from our receipt of the pre-approved COM, except in case of different instructions due to particular features of the material and, in any case, after verification of the technical feasibility.

pre-approval process

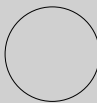

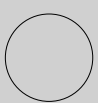

- I. The possibility to cover the requested product with COM is subject to Calligaris S.p.A. check of a sample that must be sent concurrently with the issuing of the order.
- II. DO NOT send any material for production without having received previous approval from Calligaris.
- III. Email your PO to your correspondent in Italy;
- IV. An A4 sample (210 x 297 mm) of the COM is sufficient.
- V. Send swatch sample to: Calligaris S.p.A. - Via Trieste, 12 - 33044 Manzano (UD) - Italy - ATTENTION: EXPORT DEPARTMENT
- VI. The sample must be shipped to our company DDP "delivery duty paid" and must include all the information to identify the material, the order and the model it refers to. The information must be applied to the outside of the packaging. The mandatory information consists of:
 - Name and address of shipper (material supplier; architect; interior designer; etc);
 - Name and address of the customer;
 - Your PO number;
- VII. Customer needs to send an email to export@calligaris.it of shipment
- VIII. The shipment must be done using UPS or DHL or TNT. No shipments with any post office couriers will be accepted.
- IX. The proforma documents must include the following text:
 - Fabric sent free of charge for manufacturing purposes only.
 - Value for customs purposes only.

material shipment for production

- I. After you receive pre-approval of the sample (see "PRE-APPROVAL PROCESS" above), the customer own material ("COM") must be shipped to our company DDP "delivery duty paid" and must include all the information detailed above.
- II. The destination of the shipment is the following: CALLIGARIS S.P.A. - Via Trieste, 12 - 33044 Manzano (UD) - Italy - ATTENTION: EXPORT DEPARTMENT
- III. send an email to: export@calligaris.it alerting of shipment.
- IV. The shipment must be done using UPS or DHL or TNT. No shipments with any post office couriers will be accepted.
- V. The material needs to be shipped as a roll, not folded, to avoid damage (only pre-approval sample swatches can be shipped flat).
- VI. Custom clearance: the customer is responsible for asking their fabric supplier to include all technical information on the material, composition and contents.

How to process the orders through the portal

In order to offer you a better service, please be so kind as to follow the instructions here below to process the orders through the CALLIGARIS portal. This is for **stools, chairs, tables, coffee tables, mirrors, other accessories, sideboards**.

- Access the portal from the link **<https://b2b.calligaris.it/>**
- Select the desired products and quantities, which will automatically show in the cart on the top right of the screen

- Send the order directly from the cart after having double checked that everything is correct and then click on «create order»
- You will immediately receive via email a summary of the order
- The portal manages the quantities that are different from the standard packaging (excluded MTO items). Therefore, please check page 13 «PURCHASE OF ITEMS FOR NON STANDARD PACKAGING QUANTITIES»
- The portal does not allow to cancel and/or amend the order after it has been sent. In this case, we kindly ask you to write directly to Calligaris.

All Calligaris product packages contain a "Product sheet" which complies with measures envisaged by the D.L. 206/2005 "CODE OF CONSUMPTION" and with the decree dated February 8th 1997 n. 101 "Implementation regulation".

This price list has a purely descriptive purpose; the information you will find inside is valid at the moment of its drafting. Features and sizes of all products are subject to variations, changes and improvements which can be made without prior notice and are not binding for Calligaris S.p.A.

Horizon CS6017

HORIZON is a furniture family available in an array of different designs. Crafted from wood, it has central cabinet doors and comes both with and without drawers. The handleless central drawers are equipped with a push-pull opening system. All compartments are fitted with a transparent tempered glass shelf or ceramic. The top comes with a raised rim and has been covered with toughened glass. The metal base has either a rectangular or cylindrical section with interchangeable tips of your choice. Also available in an entertainment-unit version. A practical cable hole at the back makes it easy to connect electrical wiring.

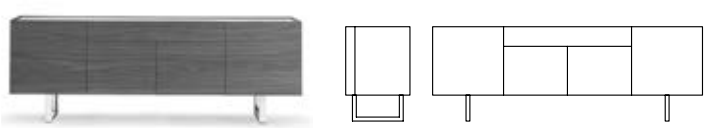

Base "A"

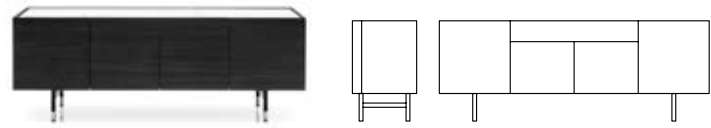

Base "B"

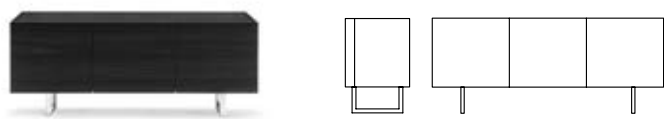

ATTENTION: ALWAYS indicate on the order the metal feet finish (P1L or P175).

Lake CS6076

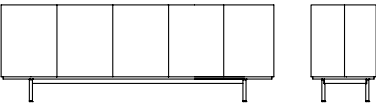

Lake is a living-area piece which stands apart for its sleek harmonious lines. On a raised base, it has an oval shape and its beauty is enhanced by the ceramic top which is slightly set back from the edge, creating a space between door and top which is useful for opening the doors and drawers. This item has been veneered all over, making it ideal for a whole variety of uses.

Cluster

CS6099 designer **Gino Carollo**

The Cluster bookcase was born from the need to create a modular, versatile and multifunctional bookcase system. A furnishing system that could be extremely flexible, able to satisfy every design need, both aesthetic and functional. The double-sided finish of each element allows it to be used as a room divider. A multifunctional system obtained thanks to the variety of modules as drop down door containers, display cabinets, shelves, drawers. It is also offered in two aesthetic variants as the uprights are designed to be fixed to the ceiling or to the wall. The shelves are available in wood and sheet metal, making it possible to play with chromatic and compositional variations. All this, together with the attention to detail, make Cluster a product, which is synonymous with customization and great creative freedom.

technical information

cabinet bases structures – hanging storage cabinets

Material	MDF low formaldehyde emission panels (E1 class)
Thickness	16 mm
Wood finish	textured veneer or matt lacquered

storage cabinet – backs

Material	Low formaldehyde emission plywood panels (E1 class)
Thickness	16 mm
Finish	textured, matt lacquered, wood veneer

storage cabinet – inner partition

Material	MDF low formaldehyde emission panels (E1 class)
Thickness	16 mm
Finish	textured, matt lacquered, wood veneer
Features	Complete with brackets

upright

Material	60 x 30 mm steel tube
Thickness	2 mm
Finish	Varnished metal
Features	Complete with support brackets

telescopic tube

Material	50 x 25 mm metal tube
Thickness	2 mm
Finish	Varnished metal

shelves

Material	Low formaldehyde emission plywood panels (E1 class)
Thickness	30 mm
Finish	textured, matt lacquered, wood veneer
Features	Supplied perforated for concealed brackets

metal shelves

Material	sheet metal panels
Thickness	2 mm
Finish	Varnished metal
Features	Supplied perforated for concealed brackets

glass doors

Material	Transparent smoke grey or bronze glass
Thickness	4 mm
Features	Complete with plastic runners

drop down doors

Material	MDF low formaldehyde emission panels (E1 class)
Finish	textured, matt lacquered, wood veneer or with decorations
Thickness	16 mm
Features	Drop down door with wire tensioner or oil piston for H 18

drawer/deep drawer – fronts

Material	MDF low formaldehyde emission panels (E1 class)
Thickness	16 mm
Finish	textured, matt lacquered, wood veneer or with decorations

drawer/deep drawer – inner structure

Material	MDF panels with folding synthetic melamine
Thickness	14 mm
Finish	textured clay brown
Features	Complete with square metal runners with anti-release stop and slow closing
Bottom	plywood panels with melamin Thickness 8 mm

Safety information

Screw anchors are not supplied with the product. The responsibility of choosing suitable screw anchors lies totally with the purchaser who must check whether the wall is suitable and the materials resistant. The load-bearing capacity, considered as a load evenly-distributed over the surface, and the consequent stability of the elements fixed to the wall, can be guaranteed only if the above checks have been made and if the assembly instructions supplied with the product are fully respected.

maximum shelf capacity

D (cm)	H all the lengths
34	20 kg (evenly distributed)
55	20 kg (evenly distributed)

maximum storage cabinets, internal drawer
and showcase capacity

D (cm)	H all the widths
34	10 kg

Keep the order drawing: to be consulted during assembly

VERY IMPORTANT:

- 1) Make sure the ceiling/wall is of good consistency. Avoid ceilings/walls made of plasterboard, thin perforated or poorly bound bricks, stone or other unreliable materials.
- 2) To perform a good drilling: mark the holes of the plate, drill with the supplied 04 drill bit, re-drill the holes with a 08 drill bit (attention: very important, in order for the stoppers to hold, the drill bit must not exceed 08 and the hole must not be deeper than 60 mm) - screw the screws with an electric screwdriver; in case of a brick ceiling/wall, do not use an impact drill.

ATTENTION: Calligaris S.p.a. declines any responsibility for the fall or breakage of individual parts due to: fixing on walls that are not suitable, for thickness or type of material or incorrect drilling during assembly.

ORDERS: The **Cluster** model can be exclusively ordered through the dedicated configurator, available on the customer portal <https://b2b.calligaris.it/>.

GENERAL SALES CONDITIONS

Art. 1 APPLICATION OF GENERAL CONDITIONS

These general sales conditions are applicable to the sales agreement between Calligaris Japan Y.K. (hereinafter also referred to as Calligaris) and the Purchaser (hereinafter also referred to as Purchaser), and they form an essential part of the contract and prevail over the order and any other attachments. These sales conditions shall be considered fully accepted by the Purchaser when a signed copy is returned to Calligaris or when Calligaris sends the Purchaser an order confirmation with the wording "The sale of the products herewith confirmed are subjected to the general sales conditions indicated in the current price list".

Art. 2 PRICES

The prices indicated in the price list here enclosed refer exclusively to the retailer's purchasing price. The prices are gross, therefore exclude regular customer A.B.P. condition or discounts and do not include consumption tax. The same prices are also suggested as recommended retail prices including consumption tax. Standard packing of products shall be included in the price.

Art. 3 ADJUSTMENTS TO THE PRICE LIST

This PRICE LIST replaces and invalidates all previous editions.

Calligaris reserves the right to modify, without advanced notice, the prices and products indicated in the price list; price and/or product modifications shall be applied immediately to the Purchaser.

Art. 4 DELIVERY CONDITIONS AND TERMS

The risk of loss or damage to the goods is transferred from Calligaris to the Purchaser when the goods are delivered. If the Purchaser or the carrier acting on behalf of the Purchaser does not promptly take possession of the goods or if the Purchaser fails to give timely delivery instructions, all the risk and possible extra charges connected with the goods themselves shall be charged to the Purchaser.

With reference to current Incoterms, the delivery of the goods shall be:

- ex-works customers' warehouses/logistics centres in Ohkawa City

The number of pieces packed in a box (shown beside each model on the price list) is definite. The Purchaser shall therefore tacitly accept that orders indicating an odd number of a product packed in an even quantity, be automatically adapted to the even quantity or multiple immediately following.

Orders received either through a representative or directly from the Purchaser shall be considered as accepted if they are signed by the Purchaser or when confirmed in writing by Calligaris.

Art. 5 PAYMENT CONDITIONS

The price shall be paid by the Purchaser without charge of costs, according to the conditions indicated in the order confirmation.

The following payment conditions will be applied to the Purchaser:

- T/T payment 30 days invoice date.

Calligaris reserves the right to modify at any time the payment conditions and to suspend deliveries of goods in any case of non-fulfilment, even partial, by the Purchaser with respect to the agreed payment terms, without being charged with damages of any kind.

The Purchaser shall not be granted any delay of payment in addition to what has been specified in the order confirmation.

Art. 6 DELIVERY – TRANSPORT

1) QUICKSHIP PROGRAM ORDERS

Delivery: customers' warehouses/logistics centres in Ohkawa City

Delivery time: 3 weeks

2) SPECIAL ORDERS

Delivery: customers' warehouses/logistics centres in Ohkawa City

Delivery time: 10-12 weeks

Any delay cannot be considered a legitimate reason for order cancellation or for any type of compensation and/or indemnity.

Seven days after they have been accepted by Calligaris, orders cannot be either modified or cancelled; if the order is cancelled a charge of 20% of the value of the accepted order can be applied. Any damage deriving from transportation or any discrepancy in the B/L or transportation documents (e.g. missing packages) for which Calligaris is not responsible, must be noted during the unloading stage with notes written on the documents and reported immediately and directly to the transportation company.

Art. 7 NON-COMPLIANCE OF PRODUCTS

The warranty applied to the products is the one specified by current regulations and is limited to the total replacement of the product or only the defective parts, only in cases of production defects imputable to Calligaris as manufacturer. The Purchaser shall forfeit his right to the warranty if he fails to inform Calligaris of the obvious defects of the products within eight days from the delivery date. All complaints must be forwarded in writing, using customer portal section **AFTER SALES** or filling in the dedicated form available at this link: <https://analytics-eu.clickdimensions.com/cn/ajjyf/newclaim-en>.

The warranty shall not be applied to product defects caused by incorrect assembly, improper use or use for which the product is not normally intended, failure to comply with the operating and maintenance instructions or normal wear.

Art. 8 TRANSFER OF PROPERTY

Calligaris shall remain the owner of the goods until the price has been paid in full by the Purchaser, even in cases of additions and/or modifications to the originally delivered products.

The purchasing company is authorised to sell the goods to third parties in accordance with its normal line of business, however, in this case, the full credit by the purchasing company towards its customers as regards the price of the resold goods must be settled in advance with Calligaris.

Art. 9 TECHNICAL DETAILS

Each Calligaris product is supplied with a technical sheet which contains assembly instructions, advice for usage and for maintenance. Calligaris suggests this information be made available to the sales staff and consumers.

Art. 10 INTERNET SALE

The Retailers, with Calligaris' prior express written consent, will be able to sell the Products online, with the express exclusion of sales through the Calligaris e-commerce platform, which will be managed directly by Calligaris, in compliance with the following obligations and with the Calligaris branding policy, without prejudice to the application of a number of provisions agreed in writing with Calligaris.

10.1. Domain name

The Retailer is not allowed and may not proceed in recording any domain name containing, in whole or in part, the brand literal logo Calligaris. In the event that the Retailer intends to market the Calligaris Products via an internet website (the "Website"), it shall obtain prior written consent from Calligaris giving notice of the domain name or names used.

10.2. Contents of the Website

The Website must be professionally designed and always technically up-to-date.

Visitors to the Website must clearly understand that it is the Retailer's Website and not the official Calligaris website. The lay out and contents of the Website shall not cause any confusion to the end consumer in this respect.

The Website shall include:

- mandatory details of the Retailer (name, services offered to the public, contact details and address, legal information, privacy requirements and Calligaris company profile);
- a clear indication on each page of the Products for which the sale is promoted;
- a clear link to the Calligaris website on every page in which the sale of the Products is promoted, without being in any event used the Calligaris logo.

10.3. Obligations on the Retailer

The Retailer must operate the physical point of sale for the entire duration of the relationship and is not entitled to operate entirely as a virtual sales point.

The Retailer must grant to the purchasers a secure payment system.

The online sales shall be made in strict compliance with any applicable mandatory consumer protection regulation, including the rules of the State where the client is located at the moment of the purchase. Failure to comply with any applicable mandatory consumer protection regulation will trigger Calligaris' right to immediately cease the supplies to the Retailer, also in respect of orders already accepted.

The Retailer must use third party platforms to distribute the Calligaris Products provided that customers do not visit the Retailer's Website through a site bearing the name or logo of the third party platform.

Art. 11 NO USE OF TRADEMARKS

The Retailer is expressly forbidden from using the trade mark that characterizes the Products for promotional or advertising purposes without the prior written consent of Calligaris.

Art. 12 PLACE OF JURISDICTION

Any controversy concerning the interpretation and execution of the agreement of sale governed by these general conditions of sale shall be referred to the Court of Tokyo. However, Calligaris reserves the right to apply to a Court located where the Purchaser has his registered offices and/or main centre of business.

Art. 13 ORGANIZATIONAL MODEL PURSUANT TO LEGISLATIVE DECREE 231/2001

The Manufacturer has adopted an organization, management and control model for the prevention of the risks of committing crimes pursuant to Legislative Decree 8 June 2001 n. 231, basing its business policy, among other things, on the basis of the principles established by its own Code of Ethics. The customer must read the code of ethics itself, adhere to and comply with these principles and procedures in the fulfilment of the obligations imposed on him by virtue of this contract.

Fabric treatments / Tratamientos a los tejidos

Surface treatment, which delays the absorption of water based stains.
Tratamiento superficial que retrasa la absorción de las manchas a base de agua.

In the fabrics with Quick Clean protection system each fiber is surrounded by a special layer that acts as an invisible shield against stains. Even if the stain apparently penetrates into the fabric, it stays on the fiber surface and is therefore easy to clean. All you need is a clean sponge and water.
Los tejidos con el sistema de protección Quick Clean tienen cada fibra rodeada por una capa especial que actúa como un escudo invisible contra las manchas. Aunque la mancha parezca penetrar en el tejido, permanece en la superficie de la fibra y, por tanto, es fácil de limpiar. Todo lo que necesita es una esponja limpia y agua.

Care symbols / Símbolos de lavado

	Do not wash with water No lavar en agua
	Hand wash Lavar a mano
	Wash with water. Maximum water temperature should not exceed the degrees indicated in the drawing Lavar en agua a la temperatura máxima indicada por el numero al interior de la cubeta
	Do not dryclean No lavar en seco
	Dryclean Lavar en seco
	Do not bleach No utilizar lejía
	Any bleach allowed Lejía se permite
	Do not tumble dry No utilizar secadora
	Tumble dry at low temperature Secado por medio tambor rotatorio admitida a temperatura reducida
	Drip dry Colgar verticalmente para que escurra
	Do not iron No planchar
	Maximum ironing temperature 110° C Planchar a temperatura máxima de 110° C
	Maximum ironing temperature 150° C Planchar a temperatura máxima de 150° C
	Iron inside out. Maximum ironing temperature 110° C Planchar vuelto al reves, temperatura máxima 110°C
	Iron inside out. Maximum ironing temperature 150° C Planchar vuelto al reves, temperatura máxima 150° C

Solid wood

Obtained by cutting the tree log through a mechanic process. The aesthetic features and grain pattern depend on the wood essence. Solid wood is usually varnished (finishing process) and reproduces the typical essence shades.

Madera maciza

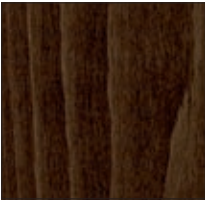

Se obtiene directamente del tronco del árbol mediante elaboración mecánica. La particularidad estética y de veta es característica de la esencia leñosa utilizada. La madera maciza viene acabada en la tonalidad típica de las varias esencias con un trabajo de barnizado (acabado).

Melamine finishes – thermal structured surfaces

Obtained by gluing plain coloured or patterned sheets which are spread on the visible layer with melamine resins on a wooden grain panel (support). Melamine coated panels allow a great variety of aesthetic solutions, they are durable and have excellent stability and resistance to wear and tear.

Ennoblecidos – superficie termoestructurada

Son revestimientos pre-terminados, obtenidos empleando papeles (unicolores o estampados) empenados o untados por el lado decorativo generalmente con resina melamínica, y aplicados sobre un panel de partículas de madera (soporte). Garantizan una gran variedad de soluciones estéticas, optima estabilidad y buenas características de resistencia al uso y duración en el tiempo.

GRIS ANTRACITA

Veneers

Veneer is obtained by using thin sheets of wood with different thicknesses which are taken from the best quality tree logs. Veneer layers are usually glued to a support and then stained accordingly. Veneer increases the quality of the products and delivers an excellent aesthetic result.

Chapado

Se realiza empleando hojas de madera noble de espesor variable recogido directamente de los troncos de mejor calidad. Estos son, después, pegados a varios soportes y acabados en la tonalidad de color deseada. Confieren gran calidad al producto y un excelente resultado estético.

Laminated Finishes

Obtained by pressure gluing various layers of fibrous material soaked in thermosetting resins and spread on the visible layer (plain coloured or patterned) with melamine resins. They are then glued on a wooden grain panel (support). Laminated panels allow a great variety of aesthetic solutions and have excellent stability, resistance to wear and tear, collisions, abrasion and humidity.

Laminados

Son revestimientos prefinidos obtenidos pegando a presión varios estratos de material fibroso empañados con resinas termo-endurecentes y untados por el estrato decorativo (unicolor o estampado) con resina melamínica. Se pegan, luego sobre un panel de partículas de madera (soporte). Garantizan una gran variedad de soluciones estéticas y óptimas características de estabilidad, resistencia a la usura, a los golpes, a la abrasión y a la humedad.

Attention!

In order to guarantee product durability, clean the plastic elements by using lukewarm water and mild soap only.
Do not use ethyl alcohol or detergents that contain even small amounts of acetone, trichloroethylene or ammonia or solvents in general.
Do not use any universal degreaser.
Do not use abrasive products.

Cuidado!

Para garantizar la duración del producto limpiar las partes en plástico utilizando sólo agua tibia y jabón neutro.
Hay que evitar el uso de alcohol etílico, acetona, tricloroetileno y amoniaco o detergentes que contengan cualquier cantidad, por pequeña que sea, de estas sustancias.
No utilizar desengrasantes universales.
No usar productos abrasivos.

Ceramic-Glass

The ceramic-glass top is a self-holding product manufactured by coupling one ceramic plate (porcelain tile) to a floating glass thanks to a special process carried out in autoclave.

For the P1C, P5C, P6C, P14C, P18C, P32C, P321, P35C, P36C finishes, the ceramic plate thickness is 3 mm and is coupled with an 8 mm thick glass (for a total of 11 mm). For the P2C, P4C, P7C, P9C, P27C, P28C, P30C, P31C finishes, the ceramic plate thickness is 6 mm and is coupled with a 6 mm thick glass (for a total of 12 mm) or with a 12 mm thick glass (for a total of 18 mm).

The porcelain tile is a ceramic material obtained using a mixture of stoneware composed by clay and valuable raw materials, which are mixed, body tinted, compacted whilst high pressure is applied and finally fired at 1200 °C.

The porcelain tile working surface features exceptional performances in terms of scratch, impact, stain, thermal shock and chemical resistance. It is easy to clean and very hygienic because it does not absorb liquids and does not release harmful substances.

Acople Cerámica-Vidrio

La tapa cerámica-vidrio es un producto autoportante obtenido acoplando, con un procedimiento especial en autoclave, una lámina de cerámica (gres porcelánico) con un vidrio float.

Para los acabados P1C, P5C, P6C, P14C, P18C, P32C, P321, P35C, P36C el espesor de la lámina de cerámica es de 3 mm, acoplada con un vidrio de espesor de 8 mm (total 11 mm). Para los acabados P2C, P4C, P9C, P27C, P28C, P30C, P31C el espesor de la lámina de cerámica es de 6 mm, acoplada con un vidrio de 6 mm de espesor (total 12mm) o con un vetro de espesor 12mm (total 18mm).

El gres porcelánico es un material cerámico obtenido con materias primas de destacado valor y pureza, picadas y teñidas en el empaste, compactadas a elevada temperatura y cocidas a la temperatura de 1200 °C. La superficie de trabajo de gres porcelánico presenta excelentes propiedades que le confieren resistencia al rayado, a los golpes, a las manchas, a las variaciones térmicas y a los productos químicos. Resulta fácil de limpiar y totalmente higiénico porque no absorbe líquidos y no suelta sustancias nocivas.

Ceramic-Wood

The ceramic-wood top is obtained by applying a layer of ceramic (gres porcelain tile) onto a panel made of wooden particles with a special gluing technique.

The porcelain tile is a ceramic material obtained using a mixture of stoneware composed by clay and valuable raw materials, which are mixed, body tinted, compacted whilst high pressure is applied and finally fired at 1200 °C.

The porcelain tile working surface features exceptional performances in terms of deep abrasion, stain, thermal shock and chemical resistance. It is easy to clean and very hygienic because it does not absorb liquids and does not release harmful substances.

Acople cerámica-madera

El acople cerámica-madera es un producto obtenido acoplando, con un procedimiento especial, una lámina de cerámica (gres porcelánico) a un panel de partículas de madera. El gres porcelánico es un material cerámico obtenido con materias primas de destacado valor y pureza, picadas y teñidas en el empaste, compactadas a elevada temperatura y cocidas a la temperatura de 1200 °C.

La superficie de trabajo de gres porcelánico presenta excelentes propiedades que le confieren resistencia al rayado, a los golpes, a las manchas, a las variaciones térmicas y a los productos químicos. Resulta fácil de limpiar y totalmente higiénico porque no absorbe líquidos y no suelta sustancias nocivas.

Ceramic-ABS

The ceramic-abs top is a product manufactured by coupling one ceramic plate (porcelain tile) to a 1 mm ABS layer thanks to a special heated pasted process.

The ceramic-abs top features exceptional performances in terms of cleanliness and grace.

The porcelain tile surface features exceptional performances in term of scratch, impact, stain, thermal shock and chemical resistance. It's easy to clean and very hygienic because it does not absorb liquids and does not release harmful substances.

Acople cerámica-ABS

La combinación cerámica-ABS es un producto obtenido aplicando una lámina de cerámica (gres porcelánico) con una lámina de ABS de espesor de 1mm con una especial técnica de encolado térmico. La combinación cerámica-ABS hace especialmente limpia y elegante la superficie posterior y el borde del producto.

El plan de trabajo de gres porcelánico ofrece características excepcionales en términos de resistencia a las rayas, a las manchas, a los cambios térmicos y a los productos químicos. Es fácil de limpiar y absolutamente higiénico por no absorber los líquidos y no libera sustancias nocivas.

Synthetic fabrics / Materiales sintéticos

Synthetic fabrics should be cleaned periodically in order to maintain their appearance and prevent build-up of dirt and contaminants. Any stain, spills or soiling should be cleaned up promptly to prevent the possibility of permanent staining. Use soft soapy solutions or special cleaning products for washable synthetic fabrics to remove stains on the surface of the material. Remove only with a damp white cloth. Lacquers, strong cleaners or acetone cause immediate damage and contribute to the deterioration of the material. The use of such cleaners is at owner's risk. Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colours. This phenomenon is increased by humidity and temperature and is irreversible. Calligaris S.p.A. will not assume responsibility for dye transfer caused by external contaminants and possible permanent staining caused by this phenomenon.

Los materiales sintéticos se deben limpiar periódicamente para mantener su apariencia y evitar la acumulación de contaminantes y mugre. Toda mancha, derramamiento o suciedad se debe limpiar con rapidez para evitar un manchado permanente. Use soluciones jabonosas suaves o productos de limpieza especiales para eliminar las manchas de la superficie del material. Limpie solamente con trapos blancos humedecidos. Las lacas, los limpiadores fuertes, los detergentes y la acetona causan daño inmediato y contribuyen al deterioro del material. El uso de estos limpiadores es bajo su propia responsabilidad. Ciertas prendas de vestir y tintes de accesorios (como los utilizados en los pantalones vaqueros) pueden migrar a superficies más claras. Este fenómeno se ve incrementado por los efectos de la humedad y la temperatura; es irreversible. Calligaris S.p.A. no asumirá ninguna responsabilidad ante reclamos de transferencia de color originados por contaminantes externos ni ante reclamos de manchas permanentes causadas por este fenómeno.

Leather - Regenerated Leather - Soft Leather / Cuero - Cuero Regenerado - Piel

Leather

Leather is obtained by using a thicker layer of European ox skin. It is first tanned and then given a finishing coat.

Cuero

El cuero se obtiene de las pieles de bovino europeo cortado en espesores mayores respecto a la piel y sometido primero al curtido y sucesivamente a un acabado cubriente.

Regenerated leather

Regenerated leather is the result of the mixture of leather off-cuts (min 60%) and other natural materials. Regenerated leather is finished with the same procedure used for leather.

Cuero regenerado

El regenerado de cuero es un aglomerado obtenido de mezcla de virutas de las pieles (mínimo 60%) y otros materiales naturales y acabado con la misma modalidad utilizada para el cuero.

Soft leather

Calligaris uses leather which comes from the finest part of the European ox skin (the core) cut in different thicknesses depending on the requests and then tanned. The external finish is obtained by using water based colours.

Piel

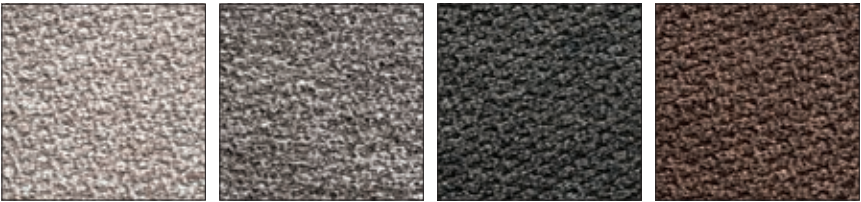

la piel utilizada por Calligaris se obtiene de la parte mas noble de las pieles (la flor) de bovino europeo cortado en espesor variable según la exigencia y sometido a curtido. El acabado externo es obtenido con pigmentación a base de agua.
